1. **TOOL/GAGE/DESIGN/BUILD -- MARKING STANDARDS (Clause C-10.1) (October, 2016)**

   Seller's tool and gage designs shall conform to Buyer's "Tool Design Manual, KCP-613-8322-REV-4-15-2009," the latest Vendor-Setup Document for the CAD package that is utilized and incorporated herein by reference with the same force and effect as if stated in full text. Request copy from buyer if needed. Seller shall submit electronic file to the Buyer with PO number and Part Number in subject line or contact buyer for secure link to submit file.

   The following is a list of the highest acceptable CAD packages that can be used to send files electronically:

   Creo Parametric 3.0 - Tools, Gages, Comparator Charts
   Solidworks 2016 - Tools, Gages, Comparator Charts
   Autocad 2014 - Comparator Charts only

   Buyer will only provide formats for the latest versions of Creo and Solidworks. Revisions to drawings must be done in the versions listed above.

   *Solidworks 2014 may be used for new designs. If you are using Solidworks 2014 you cannot accept any revisions that were designed in a later version.
