

**1. NOTICE CONCERNING PROPOSED TOOLING CHARGES (Provision K-10.1)
(October 2003)**

If tooling is required to produce the item(s) in this solicitation, your proposal/quotation must include, as a separate item, the description and cost of tooling, number of parts tooling will produce in an eight-hour day, and maximum number of parts tooling will produce.

Tooling must be capable of producing a minimum of parts at a minimum monthly rate of parts.

A separate purchase order will be issued for any required tooling.

Tooling will be paid for after acceptance of parts made from the tools and after Form 1129, Certified Tool List, has been completed in triplicate and returned to the Buyer's named representative. Each tool must be identified as property of the government and is subject to removal by Buyer or the government.

The provisions of Document 7116-10-03, Special Requirements for Tools and Equipment, is incorporated herein by reference with the same force and effect as if stated in full text, will be a requirement of any tooling order resulting from this Request for Proposal.

Commented [RCC1]: Include in solicitation, at discretion of Buyer, when tooling may be required to produce parts.
