

1. CONSTRUCTION SUPPLIER PERFORMANCE INDEX (Clause L-1.2) (January 2011)

In conjunction with document 0106-01-11, Request For Proposal Instructions, offeror's proposal will be evaluated based on the following criteria to determine Buyer's best value:

1. Determine Buyer's price related costs (i.e., total proposal price including all options (if any) and miscellaneous and non-recurring type charges).
2. Multiply the Buyer's price related costs by the offeror's performance indicator; Construction Supplier Performance Indicator (CSPI) criteria are Construction Management (timely substantial completion, timely punch list completion, quality CPM, monitor/update CPM schedule), and Safety (safety compliance, quality of tools, OSHA Recordable Results).
